The Yarralumla Residents Association is pleased to provide comment on the recent EBPC Act Referral concerning the urban development of the Canberra Brickworks Precinct.

We are concerned that this referral is being reviewed without a draft Master Plan and details of works proposed for the quarry area. We are also concerned about the loss of Golden Sun Moth habitat within the Canberra Brickworks Precinct, particularly given the 3-fold increase in Golden Sun Moth habitat in the adjoining area near Dudley Street in just 3 years.

Yours sincerely

David Harvey
President, Yarralumla Residents Association
9 November 2017
